CAREER OBJECTIVE

Motivated Computer Science graduate and Freelance Web Developer with hands-on experience building full-stack web applications, management systems, and digital solutions. Seeking a Junior Software Developer or Full-Stack Developer role where I can contribute to building scalable, efficient, and user-focused applications while further developing my technical expertise.

EXPERIENCE

Freelance Web Developer 2025 – Present

Self-Employed

- Design and develop full-stack web applications using modern frontend and backend technologies with focus on scalability and performance
- Build custom systems including dashboards, management systems, and business applications
- Implement REST APIs, authentication, and database-driven features
- Design responsive and user-friendly UI/UX interfaces focused on performance and usability
- Collaborate with clients to gather requirements and deliver functional, production-ready solutions
- Maintain, debug, and optimize existing applications for improved performance and reliability

Immaculate Conception College of Balayan, Inc December 2025 – April 2026

Student Intern (OJT), Registrar’s Office

- Assisted staff and students during enrollment and document processing
- Organized and maintained 500+ academic records with accuracy and confidentiality
- Supported daily administrative operations and office workflows
- Managed digital and physical files for efficient retrieval and organization
- Provided technical and customer support to students and staff
